PROJECTS

MLB Show Market Tool | GitHub: <https://tinyurl.com/yjr9mpwm> | Live: <https://tinyurl.com/4ycsy93e>

- Using MLB The Show 22's API, this tool goes through the player card marketplace and identifies the most profitable cards to flip. It also has a quick calculator that will tell the user whether to buy/sell cards.
- JavaScript, Next.js, React, CSS, HTML, API

Retail Comms | GitHub: <https://bit.ly/3zAcDqE>

- A platform for retail workers to better communicate item information as well as set tasks and memos..
- I'm responsible for the entire project. I've challenged myself to use Typescript & Axios which I had no prior knowledge of to further challenge me in my learning.
- React, JavaScript, Typescript, CSS, HTML, Express, MongoDB

Media Collector | GitHub: <https://bit.ly/3kxj0Bb> | Live: <https://bit.ly/3dOtnRC>

- Media collector allows its users to make an account and add movies and books they own. When a user adds a movie or book it is added to the community homepage where others can comment and talk about their favorites.
- Responsible for everything with the exception of the book paths. Acted as project manager, connected site to the MoviesDB API, returned results based on user selection, and assisted in the styling of the website
- CSS, HTML, JavaScript, mySQL
